Independent Auditors' Report

To the Honorable Mayor and
Members of the Town Council
Town of Valdese, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Valdese, North Carolina as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Valdese, North Carolina's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Town of Valdese ABC Board were not audited in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Valdese, North Carolina, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Other Postemployment Benefits Schedule of Changes in Total OPEB Liability and Related Ratios, the Local Government Employees' Retirement System Schedules of the Proportionate Share of the Net Pension Liability (Asset) and Contributions, and the Law Enforcement Officers' Special Separation Allowance Schedules of the Changes in Total Pension Liability and Total Pension Liability as a Percentage of Covered Payroll, on pages 4-11 and 58-62, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Valdese, North Carolina's basic financial statements. The combining and individual fund financial statements, budgetary schedules and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal and State Awards is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the *State Audit Implementation Act*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary schedules, other schedules, and the Schedule of Expenditures of Federal and State Awards are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budgetary schedules, other schedules, and the Schedule of Expenditures of Federal and State Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 12, 2020 on our consideration of the Town of Valdese, North Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Valdese, North Carolina's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Town of Valdese, North Carolina's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Valdese, we offer readers of the Town of Valdese's financial statements this narrative overview and analysis of the financial activities of the Town of Valdese for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

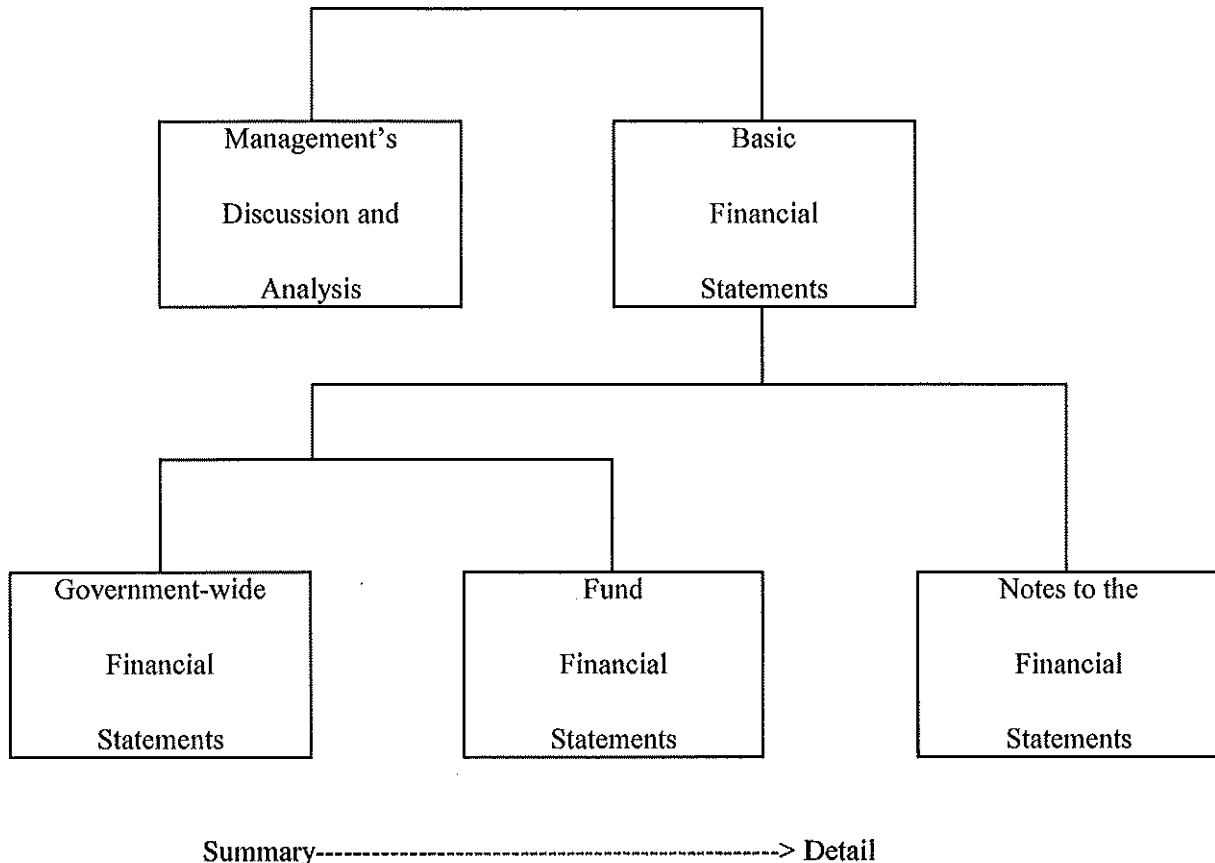

Financial Highlights

- The assets of the Town of Valdese exceeded its liabilities at the close of the fiscal year by \$29,358,044 (net position).
- The government's total net position decreased by \$74,368.
- As of the close of the current fiscal year, the Town of Valdese's governmental funds reported combined ending fund balances of \$6,888,851, with a net increase of \$585,180, in fund balance. Approximately 48.84 percent of this total amount, or \$3,364,414, is non-spendable or restricted.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$3,524,437, or 72.06 percent of total General Fund expenditures for the fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Valdese's basic financial statements. The Town's basic financial statements consist of three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Financial Statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Valdese.

Required Components of Annual Financial Report
Figure 1

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the Government-wide Financial Statements. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 10) are Fund Financial Statements. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the Town's individual funds. Budgetary information required by the North Carolina General Statutes also can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and total liabilities. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities; 2) business-type activities; 3) component units. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes and State and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. This includes the water and sewer services offered by the Town of Valdese. The final category is the component unit. Although legally separate from the Town, the ABC Board is important to the Town. The Town exercises control over the Board by appointing its members and because the Board is required to distribute its profits to the Town.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Valdese, like all other governmental entities in North Carolina, uses fund accounting to ensure and to reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of the Town of Valdese can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds - Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called modified accrual accounting which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Valdese adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Board; 2) the final budget as amended by the Board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Funds - The Town of Valdese has one proprietary fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of Valdese uses enterprise funds to account for its water and sewer activity. This fund is the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 23 of this report.

Other Information - In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Town of Valdese's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page 58 of this report.

Interdependence with Other Entities - The Town depends on financial resources flowing from, or associated with, both the Federal Government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign government and other holders of publicly held U.S. Treasury Securities.

As noted earlier, net position may serve, over time, as one useful indicator of a government's financial condition. The assets of the Town of Valdese exceeded liabilities by \$29,358,044 as of June 30, 2020. The Town's net position decreased by \$74,368 for the fiscal year ended June 30, 2020. However, the largest portion, 77.11%, reflects the Town's investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related

debt still outstanding that was issued to acquire those items. The Town of Valdese uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Valdese's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town of Valdese's net position \$858,321 (2.92%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$5,862,409 is unrestricted.

Several particular aspects of the Town's financial operations positively influenced the total unrestricted governmental net position:

- Continued, concerted effort to control cost and manage expenditures responsibly.
- Continued diligence in the collection of property taxes by maintaining a tax collection percentage of 97.89%.
- Sustained effort to stabilize property tax revenues with both new residential and non-residential development.
- Continued acquisition of grant funding for major projects.
- Annual review and re-prioritizing of Capital needs.
- Adherence to the adopted budget.

Governmental Activities - Governmental activities increased the Town's net position by \$219,952. Key elements of this increase are anticipated and unanticipated events as follows:

- Funds expended on capital projects not yet completed/capitalized.
- Modest growth in tax revenues.
- Revenues higher than anticipated.
- Expenditures lower than anticipated.

Business-type Activities - Business-type activities decreased the Town of Valdese's net position by \$294,320. Key elements of this increase are as follows:

- Continuation of a Capital Improvement Plan.
- Decrease in revenue due to economic conditions, mainly the COVID-19 Pandemic.
- Decrease in the amount of grants received.
- Increase in debt service.

Financial Analysis of the Town's Funds

As noted earlier, the Town of Valdese uses fund accounting to ensure, and demonstrate compliance with, finance-related legal requirements.

Governmental Funds - The focus of the Town of Valdese's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Valdese's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the Town of Valdese. At the end of the current fiscal year, available fund balance of the General Fund was \$3,524,437, while the total fund balance reached \$4,528,448. The Town currently has an available fund balance of 73.86 percent of General Fund expenditures, while the total fund balance represents 94.91 percent of that same amount.

At June 30, 2020, the governmental funds of the Town of Valdese reported a combined fund balance of \$6,888,851, a 9.28 percent increase from last year. Included in this change in fund balance are increases in the fund balance in the General Fund and a decrease in the fund balances of the Other Governmental Funds.

General Fund Budgetary Highlights - During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Proprietary Funds - The Town of Valdese's proprietary funds provide the same type of information found in the government-wide statements, but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$1,265,793. The total change in net position was an decrease of \$294,320. Other factors concerning the finances of this fund have already been addressed in the discussion of the Town of Valdese's business-type activities.

Capital Assets and Debt Administration

Capital Assets - The Town of Valdese's investment in capital assets for its governmental and business-type activities as of June 30, 2020, totals \$29,661,390 (net of accumulated depreciation). These assets include buildings, land, equipment, plant and distribution systems, and vehicles.

Major capital asset transactions during the year include the following additions (there were no significant demolitions or disposals):

- Purchase of new equipment, including police tasers and rescue UTV for fire.
- Repair of equipment and facilities.
- Purchase of new vehicles, including 3 police cars.
- Waldensian Room renovations at Old Rock School.

The Town of Valdese's total debt increased by \$1,863,644 (36.11%) during the past fiscal year.

North Carolina General Statutes limit the amount of general obligation debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the Town of Valdese is \$23,823,537.

Additional information regarding the Town of Valdese's long-term debt can be found in Note III.B.6 beginning on page 51 of this report.

Economic Factors and Next Year's Budgets and Rates

The following are key economic indicators that continue to affect the status of the Town:

- The Town of Valdese (regional) unemployment rate was 7.3%, compared to the State's rate of 7.6% and the national rate of 11.1% as of June 30, 2020.
- Property taxes, our largest revenue source, remained steady.
- Sales and Utility Franchise taxes are our next largest revenue sources. Both have been trending positive. We expect this trend to slow down in the upcoming fiscal year.
- The effects of losing textile industries continues to provide challenges for our Utility System. However, we are optimistic that the current and planned effort to expand our residential customer base through development and acquisition will continue to partially offset these losses.

Budget Highlights for the Fiscal Year Ending June 30, 2021

The original budget for the fiscal year 2020-2021 increased 4.4% over the previous fiscal year. This is primarily due to a large paving project, rising recycling costs, and insurance costs. This funding level provides for the continuation of all basic Town services, in addition to Community and Recreational services.

The property tax rate remains at \$0.545 per one hundred dollars (\$100) valuation. The County wide property revaluation from the FY 19-20 is still allocated towards streets and public safety.

Budgeted expenditures for general operations in the General Fund are expected to increase. This increase is primarily due to an increased cost of recycling, employee compensation, facility maintenance, and inflation. The fiscal year 2021 budget maintains the current level of employee benefits with minor adjustments in deductibles.

The water and sewer rates in the Town will follow the Utility Fund's Capital Improvement Plan and rate model for residential, commercial, and industrial customer base rates. Through this budgeting and capital project model, the Town has developed a balanced projection for needed revenues generated from these rates to cover the day to day operating needs of the Utility Fund, as well as to address the aging infrastructure in our water and sewer system in a timely manner.

**Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of the Governmental Funds to the
Statement of Activities
For the Year Ended June 30, 2020**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 585,180
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.	(242,182)
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities	203,141
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Change in deferred revenue for tax revenues.	(78,509)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction has any effect on net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(171,403)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Other postemployment benefits Pension expense Compensated absences	68,883 (138,644) <u>(6,514)</u>

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

I. Summary of Significant Accounting Policies

The accounting policies of the Town of Valdese, and its discretely presented component unit, conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Valdese is a municipal corporation which is governed by an elected mayor and a five member council. As required by generally accepted accounting principles, these financial statements present the Town and its component unit, a legally separate entity for which the Town is financially accountable. The discretely presented component unit presented below is reported in a separate column in the Town's financial statements in order to emphasize that it is legally separate from the Town.

The Town of Valdese ABC Board

The members of the ABC Board's governing board are appointed by the Town. In addition, the ABC Board is required by State statute to distribute its surpluses to the General Fund of the Town. The ABC Board, which has a June 30 year-end, is presented as if it were a proprietary fund (discrete presentation). Complete financial statements for the ABC Board may be obtained from the entity's administrative offices at Town of Valdese ABC Board, P. O. Box 1058, Valdese, N. C. 28690.

B. Basis of Presentation

Government-wide Statements: The Statement of net position and the statement of activities display information about the primary government and its component unit. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole, or in part, by fees charged to external parties.

The statement of activities presents a comparison between direct expense and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include: (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category - governmental and proprietary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Town reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services.

The Town reports the following non-major governmental funds:

Water Plant Capital Project Fund - This fund is used to account for improvements to the water plant.

Police Department Capital Project Fund - This fund is used to account for police department capital expenditures.

Public Safety Building Project Fund - This fund is used to account for cost associated with the planning of a new public safety building.

Public Art Fund - This fund is used to account for assets to add art to the Town.

Capital Outlay Fund - This fund accounts for assets held by the Town for the construction of a community house or other capital projects.

Lake Rhodhiss Capital Project Fund - This fund is used to account for improvements to the Lake Rhodhiss Plant.

Lakeside Park Phase I Project Fund - This fund is used to acquire revenue for the first phase of the Lakeside Park construction.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

CDBG Scattered Sites Housing Fund - This fund is used to acquire revenue for housing rehabilitation.

Alba Waldensian Building Demo Fund - This fund is used to acquire revenue for the demolition of an abandoned factory within the Town.

The Town reports the following major enterprise fund:

Utility Fund - This fund is used to account for the Town's water and sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements - The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise fund are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements - Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as a revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when the vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013, and for limited registration plates, are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Intergovernmental revenues and sales and services are not susceptible to accrual because, generally, they are not measurable until received in cash. Grant revenues which are unearned at year-end are recorded as unearned revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Funds. All annual appropriations lapse at the fiscal year-end. Project ordinances are adopted for the Capital Project Funds, Special Revenue Funds and the Enterprise Fund Capital Projects Funds, which are consolidated with the operating funds for reporting purposes. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the department level for all annually budgeted funds and at the object level for the multi-year funds. The Town manager has unlimited authority to transfer appropriations within a department. He is authorized to transfer up to \$1,000 between departments of the same fund with subsequent Board approval. During the year, several immaterial amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year, or the governing board must adopt an interim budget that covers that time until annual ordinance can be adopted. The Capital Outlay Fund is not required to be budgeted.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the Town and the ABC Board are made in Board-designated, official depositories and are secured as required by State law (G.S. 159-31). The Town and the ABC Board may designate as an official depository any bank or savings association whose principal office is located in North Carolina. Also, the Town and the ABC Board may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law (G.S. 159-30(c)) authorizes the Town and the ABC Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain nonguaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; and the North Carolina Capital Management Trust (NCCMT).

The Town's investments and the ABC Board's investments are reported at fair value. Non-participating, interest earning contracts are accounted for at cost. The NCCMT Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value. The NCCMT-Term Portfolio is a bond fund, has no rating and is measured at fair value. As of June 30, 2020, the Term portfolio has a duration of .15 years. Because the NCCMT Government and Term Portfolios have a weighted average maturity of less than 90 days, they are presented as an investment with a maturity of less than 6 months.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income and considers all cash and investments to be cash and cash equivalents. The ABC Board considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash and cash equivalents.

3. Restricted Assets

Customer deposits held by the Town before any services are supplied are restricted to the service for which the deposit was collected.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

Powell Bill Funds are also classified as restricted cash, because they can be expended only for the purpose outlined in G.S. 136-41.1 through 136-41.4.

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2019. As allowed by State law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that was written off in prior years.

6. Inventory and Prepaid Items

The inventories of the Town and the ABC Board are valued at cost (first-in, first-out), which approximates market. The Town's General Fund inventory consists of expendable supplies, and they are recorded as expenditures as used, rather than when purchased.

The inventories of the Town's Enterprise Fund, and those of the ABC Board, consists of materials and supplies held for subsequent use. The cost of this inventory is expensed when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements and are expensed as the items are used.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are \$5,000. Donated capital assets received prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the assets, or materially extend assets' lives, is not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	30
Buildings	50
Improvements	25
Vehicles	6
Furniture and equipment	10
Computer equipment	3

Property and equipment of the ABC Board are depreciated over their useful lives on a straight-line basis as follows:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Equipment and furniture	10
Leasehold improvements	10-20
Computers	3

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meets this criterion, pension deferrals for the 2020 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has two items that meet the criterion for this category - property taxes receivable and pension deferrals.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premiums or discounts. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to thirty days earned vacation leave with such leave being fully vested when earned. For the Town's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Town has assumed a first-in, first-out method of using accumulated compensated time. The portion of the time that is estimated to be used in the next fiscal year has been designated as current liability in the government-wide financial statements.

The Town's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Town has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position/Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements is classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through State statute.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Non-spendable Fund Balance - This classification includes amounts that cannot be spent because they are either: (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories - the portion of fund balance that is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Prepaid expense - the portion of fund balance that is not an available resource because it represents the year-end balance of prepaid expenses.

Restricted Fund Balance - This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute - the portion of fund balance that is restricted by State Statute [G.S. 159-8(a)].

Restricted for Encumbrances - the portion of fund balance to be used for future obligations.

Restricted for Streets - the Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Restricted for Town Revitalization - the portion of fund balance to be used for Town improvements.

Committed Fund Balance - the portion of fund balance that can only be used for specific purposes imposed by a majority vote by quorum of the Town of Valdese's governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

USDA Reserve - the portion of fund balance restricted as stated by USDA.

Assigned Fund Balance - the portion of fund balance that the Town of Valdese intends to use for specific purposes.

Capital Projects - the portion of fund balance that has been budgeted for future capital projects.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

Subsequent Year's Expenditures - the portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed.

Unassigned Fund Balance - the portion of the fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Valdese has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local, non-Town funds, Town funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and, lastly, unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Town.

Defined Benefit Cost Sharing Plans

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LERS) and additions to/deductions from LERS' fiduciary net position have been determined on the same basis as they are reported by LERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town of Valdese's employer contributions are recognized when due, and the Town of Valdese has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LERS. Investments are reported at fair value.

III. Detail Notes on All Funds

A. Assets

1. Deposits

All the deposits of the Town and the ABC Board are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's or the ABC Board's agent in these units' names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town and the ABC Board, these deposits are considered to be held by the Town's and the ABC Board's agent in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town, the ABC Board, or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town and the ABC Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all Pooling Method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

The ABC Board has no formal policy regarding custodial credit risk for deposits.

At June 30, 2020, the Town's deposits had a carrying amount of \$128,336 and a bank balance of \$300,880. Of the bank balance, \$250,000 was covered by federal depository insurance, and the remainder was covered by collateral held under the Pooling Method. The carrying amount of deposits for the ABC Board was \$213,997, and the bank balance was \$207,684. All of the bank balance was covered by federal depository insurance.

2. Investments

At June 30, 2020, the Town's investment balances were as follows:

<u>Investment by Type</u>	<u>Valuation Measurement Method</u>	<u>Book Value at 6/30/20</u>	<u>Maturity</u>	<u>Rating</u>
N. C. Capital Management Trust Government Portfolio	Fair Value Level I	\$ 102,638	N/A	AAAm
N. C. Capital Management Trust Term Portfolio	Fair Value Level I	<u>6,852,393</u>	.15 years	Unrated
Total		<u>\$6,955,031</u>		

Interest Rate Risk. The Town has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk. The Town has no formal policy regarding credit risk but has internal management procedures that limit the Town's investments to the provisions of G.S. 159-30 and restricts the purchase of securities to the highest possible ratings whenever particular types of securities are rated. The Town's investment in the N. C. Capital Management Trust Government Portfolio carried a credit rating of AAAm by Standard & Poor's as of June 30, 2020. The Town's investment in the N. C. Capital Management Trust Term Portfolio is unrated. The Term Portfolio is authorized to invest in obligations of the U.S. government and agencies, and in high grade money market instruments as permitted under North Carolina General Statutes 159-30, as amended.

2. Pension Plan and Post-employment Obligations

a. Local Government Employees' Retirement System

Plan Description. The Town of Valdese is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing, multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, and one appointed by the State House of Representatives and the State Treasurer and the State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service, or within 180 days of their last day of service, and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service, or within 180 days of their last day of service, and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. The Town of Valdese's employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town of Valdese's contractually required contribution rate for the year ended June 30, 2020 was 9.70% of compensation for law enforcement officers and 9.04% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town of Valdese were \$290,201 for the year ended June 30, 2020.

Refunds of Contributions. Town employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By State law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a liability of \$1,225,365 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The total pension liability was then rolled forward to the measurement date of June 30, 2019 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2019, (measurement date) the Town's proportion was 0.04487% which was a decrease of

0.00039% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Town recognized pension expense of \$537,187. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$209,813	\$ -
Change in assumptions	199,714	-
Net difference between projected and actual earnings on pension plan investments	29,888	-

Town contributions subsequent to the measurement date	<u>290,201</u>	<u>-</u>
Total	<u>\$731,756</u>	<u>\$30,734</u>

\$290,201, reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date, will be recognized as an increase of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:

2021	\$211,709

	<u>\$410,821</u>

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

Actuarial Assumptions. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.50 to 8.10 percent, including inflation and productivity factor
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e., general, law enforcement officer) and health status (i.e., disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019 are summarized in the following table:

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	<u>6.0%</u>	4.0%
Total	<u>100%</u>	

The information above is based on 30 year expectations developed with the consulting actuary for the 2018 asset, liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension asset to changes in the discount rate. The following presents the Town's proportionate share of the net pension asset calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	<u>1% Decrease (6.00%)</u>	<u>Discount Rate (7.00%)</u>	<u>1% Increase (8.00%)</u>
Town's proportionate share of the net pension liability (asset)	<u>\$2,802,633</u>	<u>\$1,225,365</u>	<u>\$(85,665)</u>

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

b. Law Enforcement Officers' Special Separation Allowance

1. Plan Description

Plan Description - The Town administers a public employee retirement system (the "Separation Allowance"), a single-employer defined benefit pension plan that provides retirement benefits to the Town's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to .85% of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time Town law enforcement officers are covered by the Separation Allowance. At December 31, 2018, the Separation Allowance's membership consisted of:

Inactive members currently receiving benefits	-
Active plan members	<u>11</u>
Total	<u>11</u>

2. Summary of Significant Accounting Policies

Basis of Accounting - The Town has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meet the following criteria which we outlined in GASB Statements 73:

3. Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2018 valuation. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Salary increases	3.50 to 7.35 percent, including inflation and productivity factor
Discount rate	3.26 percent

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2018.

Mortality rates are based on the RP-2015 Mortality Tables with adjustments for males and females.

4. Contributions

The Town is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Town's obligation to contribute to this plan is established, and may be amended by, the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Town paid \$-0- as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a total pension liability of \$200,396. The total pension liability was measured as of December 31, 2019 based on a December 31, 2018 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2019 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2020, the Town recognized pension expense of \$15,230.

c. Supplemental Retirement Income Plan for Law Enforcement Officers

Plan Description - The Town contributes to the Supplemental Retirement Income Plan (the Plan), a defined contribution pension plan administered by the Department of the State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the Town. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy - Article 12E of G.S. Chapter 143 requires the Town to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2020 were \$31,162, which consisted of \$25,945 from the Town and \$5,217 from the law enforcement officers.

d. Other Post-employment Benefits

Healthcare Benefits

Plan Description - Under the terms of a Town resolution, the Town administers a single-employer defined benefit Healthcare Benefits Plan (the HCB Plan). This plan provides post-employment healthcare benefits to retirees of the Town, provided they participate in the North Carolina Local Governmental Employees' Retirement System (the System) and have at least twenty-five years of creditable service with the Town and were hired prior to July 1, 2016. The Town pays the full cost of coverage for these benefits through private insurers. Also, the Town retirees can purchase coverage for their dependents at the Town's group retiree rates. The Town Council may amend the benefit provisions. A separate report was not issued for the plan.

Membership of the HCB Plan consisted of the following at June 30, 2018, the date of the latest actuarial valuation:

Inactive members or beneficiaries currently receiving benefits	5
Inactive members entitled to, but not yet receiving, benefits	0
Active plan members	<u>46</u>
Total	<u>51</u>

Total OPEB Liability

The Town's total OPEB liability of \$898,552 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.5 percent
Salary increases	3.5 to 7.75 percent, average, including inflation
Discount rate	3.50 percent
Healthcare cost trend rates	Pre-Medicare - 7.00% for 2019, decreasing to an ultimate rate of 4.5% by 2026

The discount rate is based on the yield of the Bond Buyer 20 Year General Obligation Bond Index as of the measurement date.

Changes in the Total OPEB Liability

e. Other Employee Benefits

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (the Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death, are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000, or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan, and not by the Town, the Town does not determine the number of eligible participants. The Town has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and for law enforcement officers. The Town considers these contributions to be immaterial.

3. Deferred Outflows and Inflows of Resources

Deferred outflows of resources at year-end is comprised of the following:

Contribution to pension plan in current fiscal year	\$290,201
Changes of assumptions	230,263
Difference between expected and actual experience	216,899
Net difference between projected and actual earnings on pension plan investments	29,888
Changes in proportion, and differences between, employer contributions and proportionate share of contributions	<u>2,140</u>
Total	<u>\$769,391</u>

Deferred inflows of resources at year-end is comprised of the following:

Differences between expected and actual experience	150,857
Changes of assumptions	70,440
Changes in proportion, and differences between, employer contributions and proportionate share of contributions	<u>30,734</u>
Total	<u>\$381,005</u>

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

4. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in three self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$1 million per occurrence, property coverage up to the total insurance values of the property policy, Workers' Compensation coverage up to statutory limits, and employee health coverage. The liability and property exposures are reinsured through commercial carriers for claims in excess of retentions as selected by the Board of Trustees each year. Excess insurance coverage is purchased by the Board of Trustees to protect against large Workers' Compensation claims that exceed certain dollar cost levels.

Medical stop loss insurance is purchased by the Board of Trustees to protect against large medical claims that exceed certain dollar cost levels. Specific information on the limits of the reinsurance, excess and stop loss policies purchased by the Board of Trustees can be obtained by contacting the Risk Management Services Department of the N. C. League of Municipalities. The pools are audited annually by certified public accountants, and the audited financial statements are available to the Town upon request.

The Town carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year, and settled claims have not exceeded coverage in any of the past three fiscal years.

The Town does not carry any additional insurance for flooding.

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more, at any given time, of the Town's funds are performance bonded through a commercial surety bond. The finance officer and tax collector are each individually bonded for \$50,000 and \$10,000, respectively. The remaining employees that have access to funds are bonded under a policy with the following coverage: \$10,000 per occurrence for forgery or alteration, \$5,000 per occurrence for theft inside the premises, and \$5,000 per occurrence for outside.

5. Claims, Judgments and Contingent Liabilities

At June 30, 2020, the Town was a defendant to various lawsuits. In the opinion of the Town's management and the Town's attorney, the ultimate effect of these legal matters will not have a materially adverse effect on the Town's financial position.

IV. Joint Venture

The Town, in conjunction with five other local governments, established the Burke Partnership for Economic Development, Inc. The Town appoints two members of the 24 member board. The Town has an ongoing financial responsibility for the joint venture because the Partnership's continued existence depends on the participating governments' continued funding. None of the participating governments have any equity interest in the Partnership, so no equity interest has been reflected in the financial statements at June 30, 2020. In accordance with the intergovernmental agreement between the participating governments, the Town appropriated \$49,488 to the Partnership to supplement its activities. Complete financial statements for the Partnership can be obtained from the Partnership's office in Morganton, North Carolina.

V. Jointly Governed Organization

Western Piedmont Council of Governments

The Western Piedmont Council of Governments (WPCOG) is a regional planning organization. It consists of twenty-four municipalities and four counties within western North Carolina. The WPCOG's governing board is comprised of one elected official from each of these local governments and seven at-large citizen members. Each local government has one vote. The Town paid membership dues of \$3,126 during the fiscal year ended June 30, 2020.

VI. Related Organization

The five-member board of the Town of Valdese Housing Authority is appointed by the mayor of the Town of Valdese. The Town is accountable for the Housing Authority because it appoints the governing board; however, the Town is not financially accountable for the Housing Authority. The Town of Valdese is also disclosed as a related organization in the notes to the financial statements for the Town of Valdese Housing Authority.

TOWN OF VALDESE, NORTH CAROLINA

Notes to the Financial Statements For the Fiscal Year Ended June 30, 2020

VII. Summary Disclosure of Significant Contingencies

Federal and State Assisted Programs

The Town has received proceeds from several federal and State grants. Periodic audits of these grants are required, and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

Other

The Town is subject to the authority of various federal and State regulatory agencies. No provision has been made in these financial statements for any sanctions which could be imposed if the Town were found to be in noncompliance or violation of regulations promulgated by these agencies.

VIII. Significant Utility Customers

The Town of Valdese has four utility customers whose sales represent approximately 12% of the total Utility Sales to all customers for fiscal year 2020. Loss of these customers could have a significant impact on the Town's Utility Fund.

IX. Subsequent Event

Management has evaluated subsequent events through November 12, 2020, the date on which the financial statements were available to be issued and concluded that the following subsequent event has occurred that would require recognition in the financial statements or disclosure in the financial statements:

COVID-19 Pandemic

The spread of the Coronavirus Disease (COVID-19) has been deemed a worldwide pandemic. The COVID-19 pandemic has had significant effects on global economic markets, supply chains, businesses and communities. As a result, domestic and international equity markets have experienced significant fluctuations. The impact on the Town of Valdese, North Carolina is not reflected in the financial statements for the year ended June 30, 2020, since the full impact of COVID-19 is unknown and cannot be reasonably estimated as of November 12, 2020.

**Independent Auditors' Report On Internal Control Over Financial Reporting
And On Compliance And Other Matters Based On An Audit Of Financial Statements
Performed In Accordance With Government Auditing Standards**

To the Honorable Mayor and
Members of the Town Council
Town of Valdese, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Valdese, North Carolina, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Valdese, North Carolina's basic financial statements and have issued our report thereon dated November 12, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Valdese, North Carolina's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Valdese, North Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Valdese, North Carolina's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Valdese, North Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report On Compliance For Each Major State Program
And On Internal Control Over Compliance Required By The Uniform Guidance
And The State Single Audit Implementation Act**

To the Honorable Mayor and Members
Of the Town Council of
Town of Valdese, North Carolina

Report on Compliance for Each Major State Program

We have audited the Town of Valdese, North Carolina's compliance with the types of compliance requirements described in the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of the Town of Valdese, North Carolina's major State programs for the year ended June 30, 2020. Town of Valdese, North Carolina's major State programs are identified in the summary of the auditors' results section of the accompanying schedule of findings and responses.

Management's Responsibility

Management is responsible for compliance with the requirements of State statutes, regulations, and the terms and conditions of its State awards applicable to its State programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of Valdese, North Carolina's major State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of State Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) as described in the *Audit Manual for Governmental Auditors in North Carolina* and the State Single Audit Implementation Act. Those standards, the Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major State program occurred. An audit includes examining, on a test basis, evidence about the Town of Valdese, North Carolina's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major State program. However, our audit does not provide a legal determination of the Town of Valdese, North Carolina's compliance.

Opinion on Each Major State Program

In our opinion, the Town of Valdese, North Carolina complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major State programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the Town of Valdese, North Carolina, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of Valdese, North Carolina's internal control over compliance with the types of requirements that could have a direct and material effect on each major State program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major State program, and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Valdese, North Carolina's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a State program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal and State Awards:

Note 1: Basis of Presentation

The accompanying Schedule of Expenditures of Federal and State Awards (SEFSA) includes the Federal and State grant activity of Town of Valdese, North Carolina under the programs of the Federal government and the State of North Carolina for the year ended June 30, 2020. The information in this SEFSA is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the State Single Audit Implementation Act. Because the Schedule presents only a selected portion of the operations of Town of Valdese, North Carolina, it is not intended to, and does not, present the financial position, changes in net position or cash flows of Town of Valdese, North Carolina.

Note 2: Summary of Significant Accounting Policies

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable, or are limited, as to reimbursement.

Note 3: Indirect Cost Rate

Town of Valdese, North Carolina has elected not to use the 10-percent de minimus indirect cost rate as allowed under the Uniform Guidance.
