

Village Park Mural

Artist Clive Haynes' thirty by ninety foot mural, painted on the side of a building depicts images of the Italian village where the Waldensians lived until they moved to North Carolina. Other scenes on the mural show the earliest settlement in Valdese, founded in 1893, and the transformation into a vibrant community. Haynes likes to entice viewers into his work by engaging them with a search for hidden objects.

**The Valdese mural has 51 objects hidden throughout the scenes.
See if you can find them!**
